

What does chipradar offer?

Chip for residents and visitors

chipradar shows you at a glance what's around you and what's happening right now — straight in the browser, no app download.

For you as a resident or visitor, that means: all the important local information in one place, exactly when you need it — day to day at home or while travelling.

- Find local providers — by category and with a freely adjustable radius, including photos, opening hours and ratings.
- Find local clubs and associations — from Rotary and Lions to the local sports club, the marching band and the volunteer fire brigade, right through to the parish community: handy if you're passing through and looking for a particular club.
- "What's on?" shows events, markets, blood donations, road closures and weather warnings nearby.
- "Reports" and "Contacts – Neighbourhood Help" connect you directly with your neighbourhood.
- The SOS button is always visible and shows the right emergency number for the country you're in — especially useful while travelling.
- Completely free, no account required, usable in 5 languages.

Chip for municipalities

chipradar shows the people in your municipality, at a glance, what's happening and on offer around them — straight in the browser, no app download.

For your municipality, that means: an extra, free channel to reach residents right where they're already looking for local information.

- A permanent, free listing as a public institution – no time limit, no hidden costs.
- "What's on?" digitally complements what often still lives on the community noticeboard or municipal bulletin – events, market announcements, power outages and more, instantly visible to everyone.
- "Reports" gives residents an additional channel to report accidents, fires or hazards right from their surroundings – as a complement, never a replacement, for emergency numbers.
- "Poll" lets you run your own local surveys, with a chosen radius and closing date, marked with a recognisable "Official" status.
- The entire platform runs on 100% European infrastructure and is GDPR-compliant.

Chip for associations

chipradar shows people nearby, at a glance, what's happening around them — straight in the browser, no app download.

For your association, that means: more visibility with exactly the people nearby who are looking for community life and events.

- Its own permanent tile "Clubs, Associations & Social Life" gives your association a fixed home on chipradar – not just one-off events that quickly disappear.
- Your events also remain visible under "What's on?", so you're found through two channels at once.
- Member and volunteer search is built directly into the profile, with no separate tile needed.
- Use is completely free for clubs and associations.

Chip for businesses

chipradar shows people exactly what's around them, right now — no endless searching, straight in the browser, no app download.

For you as a provider, that means: visibility exactly where and when someone nearby is looking.

- The first 100 listings per region stay free for life – with no obligation to pay later.
- A Boost factsheet allows for a much more detailed, structured presentation of your business, beyond the basic info.
- Every listing is GPS-verified, so your customers find you directly, with no hidden costs and no app download.

Available in 5 languages · active in Germany, Austria, Switzerland, France, Spain and Portugal.

What you may already know

chip's core features, in place from the very beginning:

Find providers Search by category, with a freely adjustable radius around your current or a chosen location.	Provider profiles Photos, address, phone number, opening hours and a star rating at a glance.
Favourites Save your favourite providers and find them again easily.	SOS An always-visible emergency button with country-specific numbers.
5 languages Usable in German, French, English, Spanish and Portuguese.	

What's new in the menu

chip has grown a lot over the past months – in particular, the menu has been fully reworked and extended with numerous features:

Reports Residents report accidents, fires or hazards right from their surroundings.	Pinboard A digital noticeboard for local classifieds.
Contacts – Neighbourhood Help Matches neighbours for informal help, with an age and good-conduct confirmation before every listing.	What's on? Events, blood donations, road closures, weather warnings, markets and community life at a glance.
Help Separate FAQ for users and providers, plus a contact form.	About chip The story behind chip, the idea, and its mascot.
Chip Pictures All chip images and short videos in one place.	My Chip Favourites, account, settings and newsletter, all together.
Feedback & Ideas Submit ideas, upvote them, and track their status.	Poll Local polls with a chosen radius and closing date.
Lost & Found Report lost or found items locally.	Clubs, Associations & Social Life A permanent profile for clubs, including a members/volunteers search.
